Vertical Lifting Clamp IPU10S

Product information

The Crosby IPU10S vertical lifting clamp is designed for lifting, turning and transferring stainless steel plates, sheets and fabrications. Its universal hinged hoisting eye allows lifting from different directions without side-loading the clamp, while the 180° turning range supports controlled repositioning between horizontal and vertical orientations. Available with Working Load Limits (WLL) from 0.5 to 9 tonnes, depending on the selected size.

Best used for:

- Vertical lifting and handling of stainless steel plates, sheets and fabricated components.
- Turning stainless steel loads through 180° in workshops and industrial material handling operations.

Product benefits:

- Universal hinged hoisting eye accommodates different lifting directions and multi-leg sling configurations.
- Lock-open and lock-closed latch enables pretensioning and controlled load release.
- Welded alloy steel body and forged components provide strength in a compact design.
- Individually proof tested to twice the WLL, with certification supplied.
- Individual serialization and included test certificate support traceability and inspection documentation.

Material: Alloy Steel. Pivot & cam stainless steel
Marking: According to standard, CE-mark, WLL, Logo, Type, Jaw opening, Serial number, Proof load test date
Temperature range: -40°C (-40°F) up to +100°C (+212°F)
Standard: EN 13155
Warning: A minimum load of 10% of the WLL is required.
