

Alloy Screw Pin Shackle, Crosby, Wide Body S-2169

Product information

- Capacities of 7, 12.5 and 18 metric tons.
- Proof Load is 2 times the Working Load Limit.
- Individually proof tested and magnetic particle inspected. Crosby certification available at time of order.
- Meets or exceeds all requirements of ASME B30.26 including identification, ductility design factor, proof load and temperature requirements. Importantly, these shackles meet other critical performance requirements including fatigue life, impact properties and material traceability, not addressed by ASME B30.26 ... [Read more](#)

Material: Quenched and Tempered for maximum strength. Forged Alloy Steel.

Marking: CE-marked

Finish: Self colored

Safety factor: 5:1
