

Lifting Beam Type 6600 with excavator hook

Product information

General: Low profile lifting beam for minimum head room. The table only shows a few examples of available sizes and provide an indications of dimensions, loads and weights. Other lengths and working loads can be manufactured to suit customer requirements. All beams are supplied complete with shackles according to the table. The beams can be provided with other accessories such as hooks, wire rope slings, chain slings or textile slings. Please also refer to our description in the introduction to this section on lifting beams.

Design: Lightweight welded beam construction providing good torsional stiffness.

Proof: 1,5 x WLL

Material: Beam and plate of high-strength structural steel.

Marking: Working load limit and CE marking.

Finish: Yellow painted.

Note: Also manufactured with plates and/or excavator hooks in the ends.

Our custom lifting devices such lifting and spreader beams and forklift attachments are designed, engineered, and fabricated, to meet ASME B30.20 and ASME BTH-1 standards. We ensure your equipment is not only durable but fully compliant with North American safety regulations.
